

Construction Alert

36th St. East of Smith Closed Permanently March 27, 2006

On Monday, March 27, 2006 the City of Everett will permanently close 36th Street at Smith Avenue and the railroad tracks, east of Broadway Avenue.

The City is closing this street three weeks earlier than originally planned to allow Atkinson-CH2M Hill crews easier access to construction under the I-5 36th Street Bridge. Currently, utility work is underway to facilitate expansion of the bridge for pending HOV lane construction.

Pedestrians and vehicles will not be allowed to go east under the 36th Street Bridge.

Access to Smith Street Mill west of the 36th

Street Bridge will be maintained; however, access to Diversified, the Everett Animal Shelter, and other storage yards east of the 36th Street Bridge will be diverted to the 41st Street Extension at 3rd Avenue. (See detour map below.)

Additional construction activities in the area include:

- **Workers installing a temporary traffic signal at the corner of 36th and Broadway to be activated the week of April 17.**
- **Crews beginning the detour construction for 41st Street Bridge closure by clearing brush and trees from around the Cascade View**

Bridge.

- **Verizon crews working on utility lines in Smith Avenue under the Smith Avenue Bridge at 36th Street.**

Smith Avenue and 36th Street will be used as part of the traffic detour when the 41st Street Bridge is closed around the week of April 17.

To get to the Everett Animal Shelter or to Diversified Industries: **Follow detour signs from 36th and Smith Avenue or use the 41st Street Extension east across 3rd Avenue (towards the Snohomish River) and just follow the paved road to 36th Street. Diversified is across 36th Street. Turn left (west) on 36th to reach the Everett Animal Shelter, on the left.**
